

# Children's Room Organizing Checklist

## Step 1: Clear it out

- Empty the room and sort everything.
- Toss broken toys, donate outgrown clothes.

## Step 2: Create 'homes' for items

- Books → low shelves.
- Toys → bins/boxes by category.
- Art supplies → basket or container.

## Step 3: Make it kid-friendly

- Picture labels on bins.
- Hooks at child height.
- Small laundry basket in the room.

## Step 4: Build simple routines

- 5-minute tidy before bed.
- Pick tomorrow's outfit each night.
- Return toys to their bins after play.

■ *Tip: Keep it simple. The easier it is for your child to help, the more likely the system will stick.*
